

Based on our previous conversations, I think your goal is **not just to make a website**—you want to build a **premium energy drink brand** like **Void Energy**, with a portfolio-quality website that can impress clients and employers.

ZYRO Website Roadmap (Start → Finish)

Phase 1 — Brand Identity (Day 1–3)

Brand

Brand Name
ZYRO

Tagline
Energy Redefined

Flavors

-  Green Apple
-  Raspberry
-  Blueberry + Lemon
-  Lemon

Brand Colors

Background
#050505

White
#FFFFFF

Green
#B7FF4A

Pink
#FF5C93

Blue

#69B9FF

Yellow

#F6E94A

Phase 2 — Product Design

Design every can.

- ✓ Green Apple
- ✓ Raspberry
- ✓ Blueberry + Lemon
- ✓ Lemon

Each needs

- Front label
 - Back label
 - Hero render
 - Product mockup
 - Transparent PNG
 - 3D render
-

Phase 3 — Assets

Suggested Timeline

Week	Goal
1	Finalize branding, logo, colors, and all 4 can designs
2	Create all product renders, labels, and marketing images

- 3 Design the complete website in Figma
- 4 Build the homepage with Next.js + Tailwind CSS
- 5 Build product pages, animations, and responsive layouts
- 6 Add backend, cart, checkout, SEO, testing, and deploy

Final Goal

By the end, you'll have:

- A premium beverage brand identity
- Four professionally designed product variants
- A modern animated website inspired by Void Energy but with its own identity
- A strong portfolio project demonstrating branding, UI/UX, frontend development, animation, and deployment skills
